Your Trusted Bridge from Indian Manufacturing Excellence to Global Markets

COMPANY OVERVIEW

We are not a manufacturer.

We are your professional sourcing partner.

Aad Labs (OPC) Private Limited is a Faridabad, Haryana-based export trading company specializing in premium botanical extracts, spices, and agricultural commodities. Founded by Director Aaditya Singh, we leverage our deep network of WHO-GMP and ISO-certified manufacturers across India to deliver pharmaceutical-grade ingredients to global markets.

Unlike single-factory agents, we maintain qualified relationships with multiple manufacturers — allowing us to curate the optimal batch per order, ensure supply continuity, negotiate competitive pricing, and offer small MOQs starting at 25 kg.

OUR ADVANTAGES

- **Multi-Manufacturer Network**
Best batch, best price — never limited to one factory.
- **Full Export Compliance**
IEC, FSSAI Central, GST. Complete documentation package.
- **Rigorous Quality Verification**
Pre-shipment testing + third-party CoA on every batch.
- **Flexible Logistics**
FOB, CIF, DDP. Two+ years hands-on customs clearing expertise.
- **Small MOQ Friendly**
Start with 25 kg trial. Scale as trust builds.
- **Regulatory Support**
TGA / USP / BP / IP-ready documentation.
